

NETWORK DESIGNS inc
transforming the user experience™

**A Service Disabled Veteran
Owned Small Business**

Corporate Fact Sheet

Our mission is to be the IT solution provider of choice to customers with unique IT problems requiring next-generation IT solutions. To accomplish our mission, we deliver tested and risk-free emerging technologies quickly and effectively so that our customers enjoy increased productivity and revenue across their enterprise.

We apply technical expertise in the practice of network design and integration; software applications development; and information assurance. And we leverage our technical skills with our business experience in project management and contract administration so that our customers receive knowledgeable and responsive support.

Network Designs, Inc. is a Service Disabled Veteran Owned Small Business
